

The logo for Gaviota Simbac features a white, stylized arch above the brand name. The arch is composed of two curved lines that meet at the top, resembling a simple roof or a protective canopy. The text 'Gaviota Simbac' is written in a clean, white, sans-serif font, positioned directly beneath the arch. The entire logo is set against a dark red background that is part of a larger horizontal banner.

Gaviota Simbac

Capotas / Canopy Awnings / Store Corbelle / Capottine

Tropical 

Capota especialmente recomendada para ventanas.

Se recoge y extiende a modo de bisagra (plegable), proporcionando una protección solar a cualquier hora del día por su estructura, cubriendo la ventana lateral y frontalmente (a modo de marquesina), integrándose perfectamente con todo tipo de arquitecturas y favoreciendo la intimidad en la vivienda.

Línea máxima aconsejable de 3,50 m y una salida de 1,50 m.

This canopy is specially recommended for windows.

It rolls up and down as a folding hinge, giving solar protection any time during the day and also covering the window both lateral and frontally (like a canopy). The awning perfectly integrates as well, any kind of house and contributes home privacy.

Recommended for up to 3,50 m width x 1,50 m extension.

Corbeille spécialement conçue pour fenêtres.

Se plie et déplie comme une charnière, procurant une protection solaire à n'importe quelle heure du jour grâce à la couverture latérale et frontale de la fenêtre. Elle s'intègre parfaitement dans tous les styles architectoniques et favorise l'intimité de la maison.

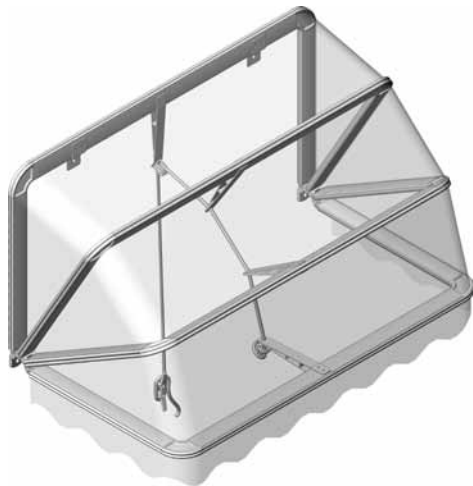

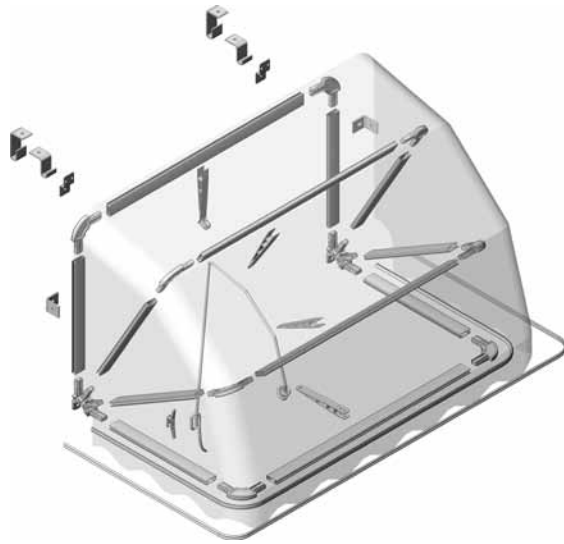

Largeur maximale recommandée de 3,50 m et projection de 1,50 m.

Capottina raccomandata per finestre

Si ritira ed estende a libro pieghevole; Grazie alla sua conformazione, garantisce una protezione solare a qualsiasi ora del giorno, coprendo la finestra e/o la vetrina, sia lateralmente che frontalmente, integrandosi perfettamente con ogni tipo di architetture, favorendo l'intimità nell'abitazione e l'eleganza sull'uso commerciale.

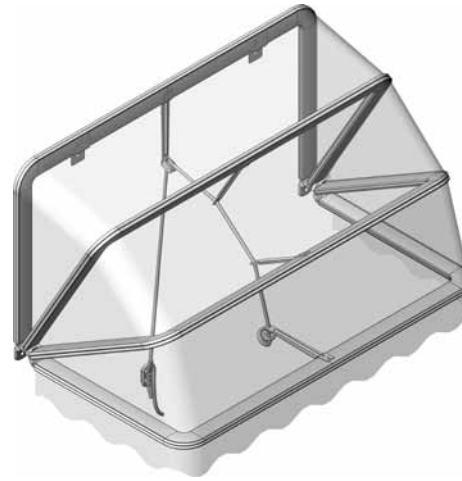

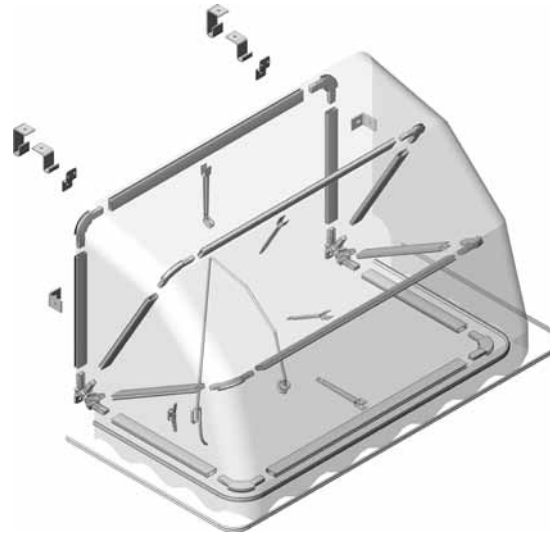

La misura massima consigliabile è in larghezza 3,50 m x 1,50 m di profond.
